

## Hitchcock Horoscopes Week of May 15, 2014

### **Aries March 21–April 19**

You will feel very generous this week and feel like you should give a gift to someone special. Unfortunately, you squandered all of your money on Scav. You will email Tom and Megan with ideas instead.

### **Taurus April 20– May 20**

You feel a void in your wallet. What could have caused it? You may never know. Those 6 flags were so pretty... You shall see Shannon to remedy this void. Pretty direct for a horoscope, right?

### **Gemini May 21– June 21**

He came. He saw. He conquered... Snell. He is Anthony Downer. I don't know what that has to do with you.

### **Cancer June 22– July 22**

\$15.71... So great but yet so small. Somehow, this number will define your week. Or something like that? What is a horoscope really?

### **Leo July 23– August 22**

You will feel the urge this week to exercise your athletic ability. You will not have any opportunities for this however, unless you go to the Rugby game on Saturday at 10am in Washington Park. Kowarski will need your money though (for IM, not rugby(and maybe not your money but Scav's(isn't that sort of our money though?))).

### **Virgo August 23– September 22**

IHC, UHC, SOMEONE–HC, TEDHC! Who is HC? Is it a cult that it is out to get you? Are they imposing their will on the masses by organizing banner competitions and tug of war? No one will ever know. Until they revise their constitution next week that is. So that doesn't really help you does it? It's horoscope for next week, not this week.

### **Libra September 23– October 23**

You have always placed great value on the historical record of our society. You believe that the artifacts of history

should be shared with everyone. On Facebook. Like pictures from Scav. And other events. WHERE ARE THE PHOTOS ALEX? ARE YOU TRYING TO WAIT UNTIL WE FORGET WHAT HAPPENED? BE WARNED, BIG BROTHER IS TRYING TO RE-WRITE HISTORY! WAKE UP SHEEPLE!

### **Scorpio October 24– November 21**

How often do you use condoms? This question will be on your mind the whole week. If you take all the condoms from the bucket right away, does that mean you use them right away or do let them age, like fine cheese and wine? Only the Gerstell can answer these questions. Seek him.

### **Sagittarius November 22– December 21**

1, 2, 3, 4, 5. Are the sections. Did they post or didn't they? Some did and some did not. You shall seek the answers. While in the bathroom. Multitasking is great, isn't it?

### **Capricorn December 22– January 19**

Body image is a topic of discussion. To seek the discussion, go to OMSA on Thursday where Shannon will lead it. The stars say that this is the second step. The first step is paying \$1 to dunk Shannon at the carnival on Saturday around 4pm.

### **Aquarius January 20– February 18**

You've been lazy lately. You've been leaving your stuff around in places like the Green Room. Take your Scav stuff out of the Green room. Don't want your stuff? If it's in decent condition, donate it to GlobeMed's rummage sale that will occur next week Wednesday-Friday. Talk to Sydney for details.

### **Pisces February 19– March 20**

You need to broaden your horizons. Explore art. Go to the Weekend of Workshops at the FXK Sunday at 2pm and 7:30pm. Also go to the University Wind Ensemble concert on Sunday at 7pm in the Logan Performance Hall. Is this a horoscope or a command?
